

Innovate
UK

Open Innovation

Local Empowerment Through Collaboration

Innovation Exchange is a programme specially designed to introduce your company's challenges to the innovators who are already working on the solutions.

Challenge Owners

Solution Providers

Innovate UK

Challenge Holders

The iX process

(1) Challenge translation

Identify and translate innovation challenges with KTN

(2) Competition

Prepare and release competition to extended KTN and innovation networks

(3) Solution selection

Filter and select responses by Solution Providers to the call

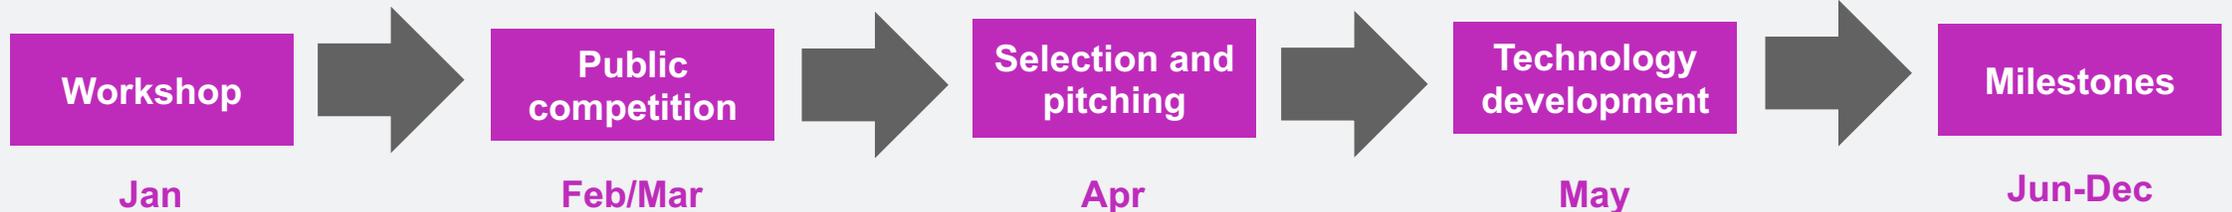

(4) Relationship building

Engage with chosen companies and identify routes for technology development

(5) Pilot project building

Run collaborative pilot project with KTN seed funding

Benefits for Challenge Holders

Supply Chain Strengthening

It helps build a route for greater and more diverse innovation content in supply chains

Quick and simple exposure to new technologies and markets

KTN delivers technology solutions from areas to which challenge holders do not normally have exposure (both in- and cross-sector)

Time efficient

It requires little time commitment, with the bulk of the resource and time provided by GAA

Expertise at no charge

We are fully funded by the UK Government and there is no charge to you for our professional services

Benefits for Solution Providers

Immediate access to large business

Successful applicants will be given the opportunity to pitch their solution to the Challenge Holder

Ongoing collaboration on project

The selected Solution Provider/s will collaborate with the Challenge Holder and gain access to local facilities, eg: farmland to carry out trials for piloting the solution

Seed Funding provision

Up to GBP 25,000 seed funding to work on the solution for this specific challenge in collaboration with the Challenge Holder

Pitching and development support

Support from KTN and mentoring from our development partners throughout the challenge process

Global Alliance Africa Open Innovation Challenges - Kenya
